

Birds of Madera Canyon

Santa Rita Mountains, Coronado National Forest, Arizona

Published by the Friends of Madera Canyon
P. O. Box 1203, Green Valley, AZ 85622-1203
www.friendsofmaderacanyon.org

April 2011

Coverage - The grassland *bajada*, mesquite brush, and grazing land along Madera Canyon Road from the Florida Wash uphill in and along both sides of Madera Canyon through the oak and juniper forests and pine and fir forests to the tops of Mt. Wrightson and Mt. Hopkins (See map).

Sp = Spring (March through May)
Su = Summer (June and July)
F = Fall (August through November)
W = Winter (December through February)

c = common - Species seen on almost every trip to the Canyon in the appropriate season and habitat.
u = uncommon - Species may only be found on half of the trips to the Canyon or fewer.
r = rare - Species may be found on only one of many trips to the Canyon and then with some luck.
i = irregular - Species occur at irregular intervals; present in some years and absent in others, but usually within the same season and habitat.
x = *accidental* - Species that have been found in the Canyon less than five times in the past 20+ years.

This checklist was compiled by George West, Laurens Halsey, Jack Murray, and Mark Stevenson for the *Friends of Madera Canyon*.
